

# ADRIAN STEEL®

*Cargo Management Solutions for Commercial Vehicles*

## PICKUP PRODUCT CATALOG

# NOT JUST ANY TOOLBOX

## THANK YOU FOR CHOOSING ADRIAN STEEL.

This catalog will prove to be a valuable tool to help you decide the products that will fill your cargo management needs. Need a professional opinion? Contact your local Adrian Steel distributor for the best advice on turning your pickup into a true asset to your business.

**FROM OUR BEGINNING IN 1953** as a small structural steel warehouse with four employees, Adrian Steel Company has grown to become a leader in the van and truck equipment industry. Located in Adrian, Michigan, our manufacturing facility now encompasses over 166,000 square feet. Adrian Steel is committed to providing quality products highlighted by constant innovation.

Adrian Steel's attention to detail and customers is thorough, it began through the corporate values instilled by founder Bob Westfall, University of Michigan All-American and Detroit Lion All-Pro football standout. Those values instilled a team effort to provide customers with value-added products and services that have become the standard of our industry.

# WHAT CONTRACTORS WANT

There isn't a job you can't tackle and your commercial pickup must be up to the task. You have better things to do than waste time with cheap products that fail when you need

them the most. At Adrian Steel we cater to demanding contractors like yourself. Our commercial grade ladder racks are designed to transport everything from ladders, lumber and sheet goods and allow you to remove the rear crossbar for carrying tall items in the truck bed. Contractor Grade aluminum toolboxes are built with automotive grade parts to secure your tools and keep them protected in the truck bed. Add a custom graphic from Commercial Curb Appeal advertising your business and you will look as good as your work.

## INDEX

4-5	Commercial Curb Appeal	12	Service Body Load Runner

**ADD MORE VALUE TO YOUR PICKUP WITH ADRIAN STEEL ALUMINUM TOOLBOXES.**

Don't buy your next toolbox from just anyone. Do you really know what you are getting (or NOT getting) for your money?

- 1. Bulb Weather Seal
- 2. Heavy-duty Gas Struts
- 3. Intrusion Resistant
- 4. "U"-Channel Edge
- 5. Double Reinforced Lid

**Are you getting a fully welded box and lid?**

Adrian's toolboxes are fully welded for strength and rigidity. The box lid is made from heavy-duty .080" diamond tread aluminum, and the basket is .063" diamond tread aluminum.

**Are you getting a low-profile, domed lid?**

Adrian Steel boxes feature an extra 45 degree bend and double channel reinforcement to add strength and stiffness to the lid. This prevents warping and assures a snug closure. The low profile allows the driver a less-obstructed rear view.

**Are you getting a weather secure box?**

Adrian Steel boxes feature a reinforced "U"-channel edge that adds structural strength to the box and more lid seating surface. The bulb weather seal protects the contents against dirt and water infiltration.

**Are you getting a box that is secure, yet easy to open?**

Adrian Steel boxes are equipped with automotive push button rotary latches that open the lids conveniently when your hands are full, while providing increased security when locked. The push button design has been cycle tested over 25,000 times, ensuring years of trouble free operation. Heavy-duty gas struts assist in lid operation, and provide years of maintenance-free operation. A linkage guard protects against linkage damage – no bending, no jamming. The full adjustable intrusion striker keeps the lid closed tight and contents more secure. And the double-sided keys allow for quicker and easier access.

**Are you going to have to drill into your truck to install the box?**

Adrian Steel toolboxes are designed to mount to your truck bed with the provided no-drill brackets. Also included is a closed cell foam tape with an adhesive back for the underside of the toolbox overhang to protect the truck bedrails from scratches.

**Are you getting any extras?**

Adrian Steel boxes come standard with a sliding, divided tray that can be accessible from both sides of the truck. It provides convenient storage for smaller items. They also come with a full length rubber liner for the bottom of the box, to keep your tools from sliding around when the vehicle is in motion.

**Are you getting the same cargo carrying capacity?**

Adrian Steel cross boxes are designed with a wide 20" basket for increased cargo capacity.

**Are you getting a 3-year, 36,000 mile warranty, professional installation, or exceptional customer service from truck equipment professionals?**

Adrian Steel distributors have Certified Technicians and Sales people on staff to help you with all of your truck equipment needs. If you ever have a problem or question about your Adrian Steel products, they have the experience and knowledge to get the answers you need. And every Adrian Steel product that is installed by an authorized Adrian Steel distributor comes with a 3-year, 36,000 mile warranty. You can't get that just anywhere.

**With Adrian Steel you know exactly what you are getting – the strength, security, peace of mind, and customer support you demand. More than just a truck equipment supplier, let Adrian Steel be your business partner.**

- 1. Aluminum Box Lip
- 2. Mounting Bracket
- 3. Bed Rail

- 1. Dome Style Lid
- 2. Push Button With Lock
- 3. Rotary Latches
- 4. Lock & Linkage Guards
- 5. Divided Plastic Tray

**NOT JUST ANY TOOLBOX.** The Adrian Steel line of commercial grade, fully welded, diamond plate aluminum boxes stand up to the toughest of conditions. Single lid cross boxes allow easy access for long items, from either side of the truck bed. Double Lid cross boxes have forward hinged double lids that open wider than the center hinge styles. Side boxes are the perfect companion to your cross box and maximize the secure storage in your truck bed. All Adrian Steel boxes are designed to keep tools and equipment safe in the bed of your truck and protected from the weather.

***If you need a box that works as hard as you do, choose Adrian Steel.***

**Visibility**  
Rigid low profile dome lid provides maximum visibility out your rear window.

**Easy opening**  
Automotive push button lock with double bitted lock cylinder.

**Security**  
Fully adjustable intrusion resistant striker keeps contents more secure.

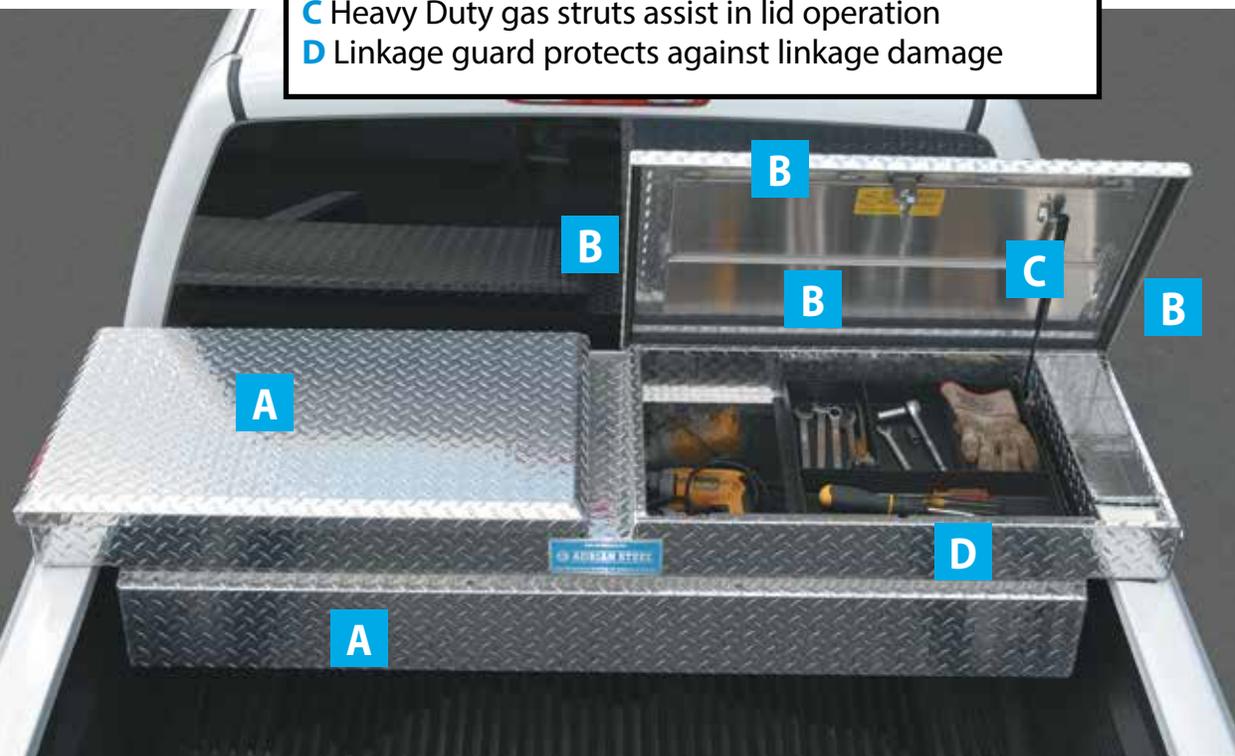

**No-drill brackets**  
Secure the box to your truck without drilling while protecting your truck bed rails.

### Toolbox Construction

- A** Three piece fully welded diamond plate body for strength and leak prevention
- B** Gaskets on all four sides of the lid for additional leak prevention
- C** Heavy Duty gas struts assist in lid operation
- D** Linkage guard protects against linkage damage

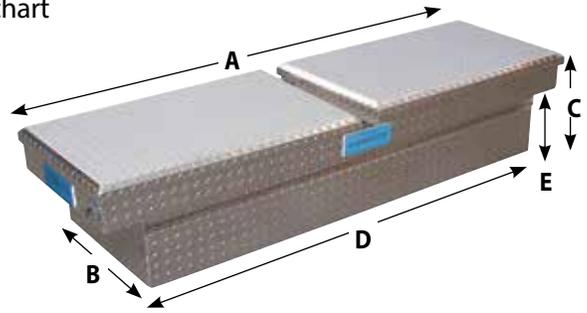

### ADRIAN STEEL ALUMINUM TOOLBOXES ARE DESIGNED TO FIT MOST LATE MODEL PICKUP TRUCKS.

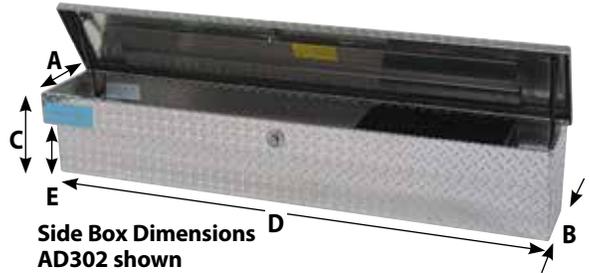

To ensure proper fit and finish please consult our truck application chart and toolbox dimensions chart below.

\* Side Box Not Compatible When Installed With Cross-Box For This Application

\*\*Please contact your Adrian Steel distributor for the correct toolbox application for the 2015 F-150.

**THE PERFECT COMBINATION OF STRENGTH, DURABILITY AND DESIGN.**

Adrian's Load Runner rack looks great, and works hard, too. With its beefy, two-inch, high-strength round tubing, Load Runner is rated for the maximum load allowed by truck manufacturers. The removable rear crossbar allows tall items to be carried in the truck bed, and convenient tie-down cleats help secure loads on top or in the truck bed. No wonder it's the top choice of many industries.

**How to order tool box envelope**

Rack dimensions for A (inside length) and B (inside height) are contained in the Load Runner rack fit Chart.

Dimensions show available area for mounting cross and side boxes. Side rail height is 8" above cross supports. Cab over extension is 47" for regular cab models and 67" for extended cab models.

Note: Exterior ladder rack and accessory equipment can cause increased cab area noise on vans and pickups.

**LOAD RUNNER FULL-SIZE PICKUP**

**Features:**

- 2" high strength round tubing
- 51" width inside to inside of truss tubes
- Fits most GM, Ford and Dodge full-size pickups
- Full-Length bed rails for 6' and 8' beds
- Black low gloss powder coat paint
- Easy assembly and installation
- Center crossbar standard
- Removable center and rear crossbar
- 2" square crossbars
- Welded tie down cleats

Rack payload capacity exceeds truck bed wall capacity rating. Consult your truck manufacturer for recommended bed capacity rating.

Load Runner pickup racks fit Chevy, GMC, Dodge, Toyota and Ford Late Model full-size pickups as indicated in the chart located below.

**LOAD RUNNER RACK FIT**

Please state make, model, year and length of pickup bed when ordering.

MAKE	CATALOG #	MODEL	A-DIM	B-DIM
Chevy/GMC/Dodge/Ford RD/Nissan/07-on	SLR-8FR	8'	89.75"	25"
Toyota Full-Size/Regular Cab	*SLR-6FR	6'	69.75"	25"
Chevy/GMC/Dodge/Ford RD/Nissan/07-on	SLR-8FE	8'	89.75"	25"
Toyota Full-Size/Extended Cab	*SLR-6FE	6'	69.75"	25"
Ford Super Duty Full-Size/Regular Cab	SLR-8FRS	8'	89.75"	29"
Ford Super Duty Full-Size/Extended Cab	SLR-6FES	6'	69.75"	29"
Chevy Colorado, GMC Canyon, Dodge Dakota, Regular Cab	MSLR-6FRB	6'	68 3/8"	22 7/8"
Ford Ranger Regular Cab	MSLR-6FRFB	6'	68 3/8"	22 7/8"

Note: Load Runner rack models SLR-6FR and SLR-6FE do not fit GM shortbed crew cab pickups.

Wind deflector included with extended cab Load Runner pickup racks.

Load Runner racks do not fit the Toyota Crew Max truck.

Not designed to fit sportside or flareside bed models.

Not compatible with Ram Box option.

Please contact your Adrian Steel distributor for the correct LoadRunner for the 2015 Ford F-150.

### MID-SIZE PICKUP LOAD RUNNER

#### Features:

- 1.75" high strength round tubing
- 51.5" width inside to inside of truss tubes on GM and Dodge mid size pickups
- 48.5" width inside to inside of truss tubes on Ford mid size pickups
- Fits most GM, Ford and Dodge mid-size pickups
- Full-Length 6' bed rails
- Black low gloss powder coat paint
- Easy assembly and installation
- Center crossbar standard
- Removable center and rear crossbar
- 1.75" square crossbars
- Welded tie down cleats

Rack payload capacity exceeds truck bed wall capacity rating. Consult your truck manufacturer for recommended bed capacity rating.

Load Runner pickup racks fit Chevy, GMC, Dodge and Ford Late model mid-size pickups as indicated in the chart on page 10.

**Easy to remove rear crossbar lets you carry tall items in the truck bed.**

### CUSTOMIZE YOUR LOAD RUNNER WITH ADRIAN STEEL ACCESSORIES

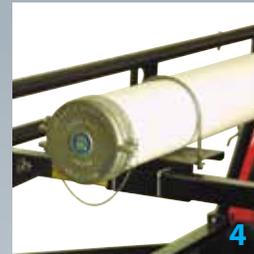

1

2

3

4

5

6

7

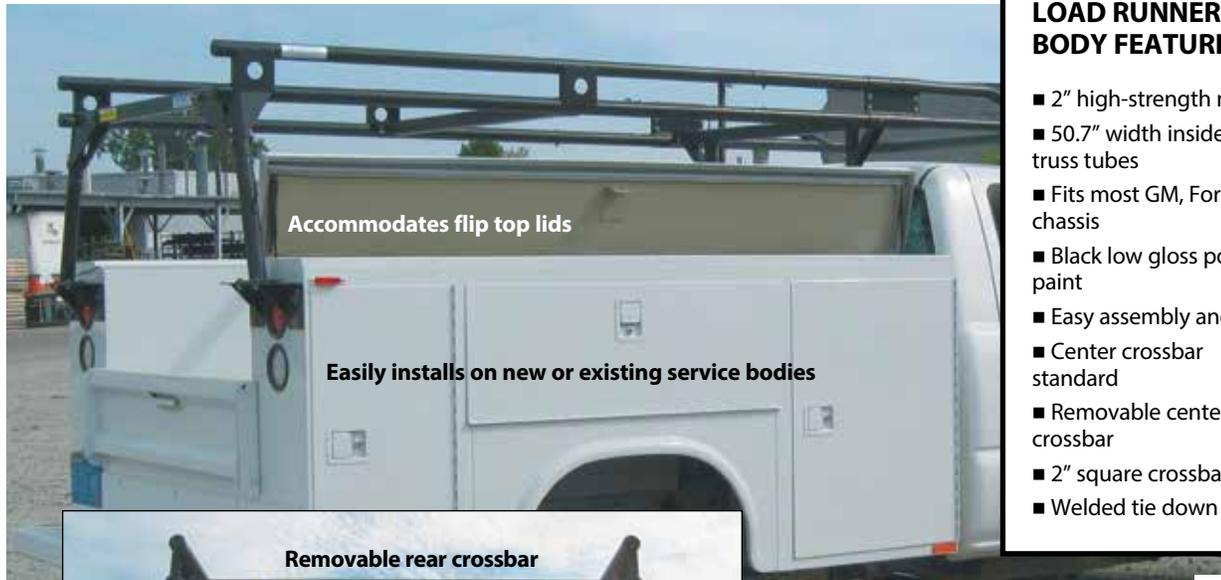

8

- 1: RS3 Round Tube Ratchet Strap** 7' canvas web strap rated at 600 lbs. with hook ratchets to tightly hold ladders and cargo to the rack.
- 2: BS2 Beacon/Strobe Mounting Bracket** 6" x 9" steel plate with stainless steel "U"-bolts attaches to cross bars or side rails for beacon or strobe lights.
- 3: 75-1 Load Runner Light Mount Kit** Galvanized stand with 4" pipe screws on to base of light for raising light above mounting surface. Includes BS2 for mounting to crossbars and side rails.
- 4: 70-3 Conduit Kit w/ Round End Caps** Use with 4-1/2" O.D. PVC pipe schedule 40. PVC tubing not supplied.
- 5: 80-1 Conduit Kit** 063" diamond tread aluminum construction. Two piece design features lift-up rear door with a spring assist for easy access and lockable swivel closure for security. Bolt-on plate enables access to front of carrier.
- 6: WG21 Side Stop Kit for 2BRS-W** Use with standard Load Runner for all Chevy/ GMC/Ford Regular Duty pickups. Black powder coat paint.
- 7: WG21S Load Runner Window Guard** Use with Load Runner on Ford Super Duty only. Rugged 1.25" X 1.25", 13 gauge tube frame with expanded metal screening. Offers maximum visibility and superior strength from the welded, no drill design. Black powder coat paint.

**ADRIAN'S SERVICE BODY LOAD RUNNER RACK FITS A VARIETY OF SERVICE BODIES.** Features two-inch high-strength round tubing, a removable rear crossbar that allows tall items to be carried in the truck bed and convenient tie-down cleats to help secure loads on top or in the truck bed. The standard rack fits 8' service bodies with either a regular cab truck or an extended cab truck.

The Service Body Load Runner is universally designed to accommodate single and dual wheel chassis. Bodies that are 9' long will require the SBE9 that adds one foot of length to the standard rack. 11' long bodies will require the SBE11.

**SBLR-8FR Load Runner Ladder Rack**  
**SBLR-8FE Load Runner Ladder Rack**

**LOAD RUNNER SERVICE BODY FEATURES:**

- 2" high-strength round tubing
- 50.7" width inside to inside of truss tubes
- Fits most GM, Ford and Dodge chassis
- Black low gloss powder coat paint
- Easy assembly and installation
- Center crossbar standard
- Removable center and rear crossbar
- 2" square crossbars
- Welded tie down cleats

**SBE9- Ladder Rack Rail Extension Kit**

**SBEL- Ladder Rack Rail Extension Kit**

**Note:** The Load Runner Service Body Rack fits a variety of the leading service body manufacturers. Due to the large number of body configurations, the Service Body Load Runner rack will not fit all bodies. To ensure proper fit and finish, please contact your local Adrian Steel Distributor. Please note the following exceptions:

- Taillights must be vertical, external mount or bumper mount. Lower horizontal lights are acceptable.
- Master Lock system may be incompatible with Service Body Load Runner. Contact your local distributor to confirm fit.
- SBEL Ladder Rack Rail Extension Kit is required for low profile bodies.
- Service Body Load Runner is not compatible with canopy tops.
- Ultra wide opening may result in mounting brackets protruding into the bed storage area.
- The Load Runner Service Body Rack will not fit fiberglass service bodies.
- Load Runner Service Body Rack will not fit Super Duty Ford Trucks with a low profile service body.
- Ford Super Duty Trucks with a standard service body will require SBEL Extension Kits.

**SBE11- Ladder Rack Rail Extension Kit**

Note: The Load Runner Service Body rack has been designed and manufactured to carry an evenly distributed 1,000 pound load. This rating only applies if:

1. The Ladder Rack has been installed in a manner consistent with the supplied installation instructions.
2. The manufacturer of the service body verifies that the service body itself is capable of carrying a 1,000 pound load, in addition to the weight of the mounted ladder rack.

Remember: The load bearing capacity of the Load Runner is no greater than the capacity of the service body to which it is attached. If the service body manufacturer cannot verify the load carrying capacity of their service body, Adrian Steel Company recommends a maximum 500 pound load capacity (evenly distributed.)

**LOADFLEX-  
Easy on...  
Easy off!**

### **THERE WHEN YOU NEED IT, OFF WHEN YOU DON'T.**

The LOADFLEX is the perfect rack for the contractor who only needs to carry ladders from time to time.

- Once installed, the rack's uprights easily slide in and out of the truck bed for there-when-you-need-it convenience.
- The unique design of the LOADFLEX allows the rack to be installed without cutting or drilling of the rack.
- The Plastisol covered, welded rung stop keeps the ladder from sliding forward and back.
- Welded-on tie hooks give you ample tie down locations.
- The LOADFLEX is designed to fit all late model GM, Ford and Dodge full and mid-size trucks.
- Powder coat black paint finish provides years of maintenance-free service.
- Rest arms easily adjust from 20.5" to 35" for wide ladders and feature slot-through bolt design to prevent separation.
- Constructed of 1.5" x 1.5", 14 gauge wall steel tubing.
- 250lb. payload capacity.

# ADRIAN STEEL®

Cargo Management Solutions for Commercial Vehicles

## QUALITY

- Our products are durable and reliable. Warranty claims are less than 1% of sales.
- Our warranty covers our products for three years or 36,000 miles.

## INNOVATIVE PRODUCTS WITH FEATURES THAT MATTER
