FINALLY!

A LADDER RACK DESIGNED AROUND YOU... NOT YOUR VEHICLE.

Introducing the All-New Drop-Down Ladder Rack from Adrian Steel!

The new, simpler design makes it easier to install and adjust. The aluminum build of the rack reduces corrosion and keeps your ladder rack looking like new. It will accomodate a variety of ladders and safely secure them for transport.

Technicians that are 5'-4" or taller can safely load and unload the ladder because of the lower, more ergonomic load and unload height. Durability testing ensures that the rack will stand the test of time and perform as it should for many years.

EXCLUSIVE!

With the turn of a knob, you can quickly adjust the rack to fit a wide variety of ladders.

This new system is low profile, aerodynamic, lightweight & tough. The clean, simplistic and corrosion resistant construction with stainless steel hardware and durable powder-coat finish is built to withstand heavy use and ensure years of dependability.

Mix and match componants and accessories give you the flexibility to get the perfect rack for your business in less time and with less hassle.

Designed to adapt to almost any vehicle (truck, trailer and topper mounting coming soon) and the unique modular design can be easily upgraded for specific utility use.

1. Minimalistic Design.

Sleek, low-profile for great looking integration on any vehicle and was specifically designed and tested to prevent wind noise.

2. Safe, Secure Loading.

Multiple integrated tie-down points come standard for quick and safe transportation.

3. Rugged Wear Strip.

Why let loading and unloading take a toll on your gear and rack systems? Our new, extra-thick Wear Strip comes standard to protect equipment and T-slot crossbars, while keeping debris out of the channels.

4. Industry-Leading Customization.

Profile™ Crossbars have built-in channels for adding Ladder Stops, Rear Roller Assist, Built-In Ratchets, Conduit Kits and additional accessories.

5. 750lb. Load Capacity.

3" x 1.5" Heavy Duty, reinforced extruded aluminum crossbars are tested to support up to 250LBS per crossbar for maximum roof loading capacity.

(Always follow OEM roof rating weight standards for safest loading capacity)

INTERIOR LADDER RACKS
OUT OF THE WAY, BUT NEVER OUT OF REACH.

When you transport your ladders within the cargo area of your van, you reduce the wear and tear on the ladder, and on yourself with easy to access and operate ladder storage solutions.

ILR
LADDER HOLDER

- The Interior Ladder Rack does not take up, limit, or reduce vertical standing room in your van and it allows quick and easy access to your ladder from outside of your vehicle.
- Customers will appreciate your use of clean, well taken care of equipment rather than bringing the outside mess into their home.
- Perfect for carrying 4ft and 6ft step ladders. Works best in high roof vans and features plastic coated clamps to protect the ladder rungs during transit.
