PART NUMBER:	VEHICLE
SPARSPH2	Sprinter High Roof

Boost Efficiency

If you access your cargo area frequently during your workday, the sliding door partition can cut the number of trips you take in and out of your vehicle in half, saving you time and energy.

Reduced Driver Fatigue

By reducing the number of trips needed to get in and out of the vehicle by half, the driver will save energy by not having to climb in and out of the vehicle all of those extra times.

Driver Protection

Barrier that separates the cargo area from cab area and helps protect the occupants in the cab from shifting cargo when the vehicle is in operation.

Theft Protection

With an optional locking handle, you can sleep better at night knowing the tools, consumables and/or packages in the back of your vehicle are secure.

Maximum Cargo Space

Enjoy the ability to access your cargo area quickly without losing valuable cargo space. The sliding door operates on the cab-side of the vehicle giving you full use of the space in the back of your van.

ADJUSTABLE SERIES (AD)

Available for Mercedes Metris

Tools, equipment and cargo come in all shapes and sizes. Until now, there hasn't been a shelving unit that is truly adjustable. The ADseries can be adjusted with a screwdriver in a matter of minutes. Simply remove the front shelf bolts and move the shelf where you need it.

All Shelves: Lip up 100 lbs or Lip Down 200 lbs. capacity each when evenly distributed.

TRULY ADJUSTABLE SHELVES

All you need is a Phillips head screwdriver! The unique shelf design features rear shelf studs that lock the shelves in place and speed nut clips that allow you to attach bolt on easily! Simply remove two bolts from the speed nut clips at the front lip of the shelf, tilt the shelf upwards to disengage the rear shelf studs, move the shelf to your desired location, insert the rear shelf studs, reattach the bolts and you're done!

ADD ACCESSORIES

Businesses change over time and your van interior should be able to change with your needs. Plug and Play shelves have prepunched holes that allow adding storage solutions easily! ADseries dividers simply snap in place, drawer units and door kits simply bolt into place. Many Adrian Steel accessories can be added to the ADseries shelving with the rail adapter kits and end panel brackets.

UP TO 50% LIGHTER OPERATION

The ProLift™ is up to 50% easier to operate than comparable drop-down style ladder racks. This makes it the easiest and safest drop-down ladder rack system on the market. Using unique patent pending mechanical advantages and high-performance spring assist struts, ProLift™ raises and lowers ladders with an almost effortless pull, saving you time and energy while reducing back and shoulder injuries.

Built on Adrian Steel's new flagship Profile™ rack system, the ProLift™ is low profile, lightweight and built to last.

Max-Drop ProLift™ has a single function that lowers the ladder to a single set height and a secondary function that lowers the rear of the ladder even further to a safer more ergonomic height. Most similar to our previous DDLR drop down series.

Available for Sprinter Low & High Roof Vans.
