PRODUCT FEATURES

An extruded aluminum bin rail is designed to be used with the AD Series shelving. The bin rail allows for positive retention of the SBINS in an AD shelving unit while still allowing for quick and easy removal of the parts bins for transport to the jobsite or for inventory replenishment. This bin set includes two (2) 12" wide bins and three (3) 6" wide bins. Front mounted card slots let you identify the contents of each bin (compartment). Optional dividers are available for further flexibility.

PRODUCT APPLICATION

This product is ideal for organizing inventory of small and/or hard to manage loose/bulk parts or materials.
