The only part of these Modular Shelving Units that are not universal are the Vehicle Mounting Kits.

-FSFMKFT & FSFMKFTA work for Transit Mid & High Roof, along with Promaster Vans

-FSFMKSPR & FSFMKSPRA work for Sprinter high Roof Vans and Promaster 159" EXT WB with an ASCO upper rail kit

The Folding Shelf Kits & Upright Kits are not vehicle specific and will work in a number of configurations

-FSFPMHAS along with the ADD ON Mount Kits are used for joining to shelving units together, allowing you to use a common center post, saving space and cost.

Below is what the Streetside Wall of a Transit might look like

CAUTION:

**BEFORE PROCEEDING, WEAR
CUT-RESISTANT GLOVES AND
SLEEVES. PARTS MAY HAVE
SHARP EDGES.**

Step 01 Assemble the shelving unit by joining the post assemblies with the shelves and header rail.

Mount Shelves to Upright Arms using FAS0018 & FAS0055
There are (3) mounting points on each end of each shelf.

Mount Top Rail to Upright using FAS0440 & FAS0438
(1) on each side of shelving unit

Step 02 Attach Vehicle Mount Kit to Shelving Unit

Install Belt Bracket using FAS0440 & FAS0438 as shown here. There is no set location for the Belt Bracket. Adjust the location as needed in order to mount bracket to the belt line of Vehicle. This can be mounted on either side of Upright to best fit the mounting location.

NOTE: For a whole shelving unit the Vehicle Mounting Brackets will be attached on both sides of shelving unit. For an **add-on** Kit they will only be installed on the Right side.

Install Fold-Up Foot using FAS0440 & FAS0438 Like shown here. This can be mounted on either side of Upright to best fit the mounting location.

Step 03 Mount Shelving Unit to van

Header Rail

Drill and set 5/16 Plusnuts (FAS0091) in each of the locations shown. Then using FAS0092, FAS0098, & FAS0112, Mount the Shelving unit to

Please use this Fastener orientation for all fastening point to the vehicle.
