

SPARE WHEEL

- LeasePlan Roadside Assistance – 800-323-5915 (Option 3 → Option 2)
- The spare wheel for Walmart's 2022+ Ford Extended Wheelbase High-Roof E-Transit is located under the rear cargo. For the low/mid roof models, they are stored under the hood. The access tools are stored in the side of the passenger seat.
- **Legend Flooring and Threshold Plate Retrofit**
 - Pre-Retrofit – The yellow threshold plate must be removed (Held down by 3-4 screws). When calling Roadside Assistance, driver must request for a flatbed if road-side is unable to remove the plate to lower the tire.
 - Post-Retrofit – The new threshold plate will have the access hole to lower the spare tire without needing to remove the plate. Lowering tools are located on the side of the passenger seat.

VEHICLE JACKING POINT
