

# Vehicle Plan-o-gram – Ford Transit (2018-Newer)

**RELEASE 1.1**  
**FTSDOC #2018-D001**  
**June 2018**

© Rite Aid FTS Documentation  
 This document is for internal Rite Aid use only.  
 Unauthorized reproduction or use is prohibited.

**Overview** This document illustrates the recommended method of organizing the equipment and tools in an FTS-issued Ford Transit (2018 or newer) for field technicians. The shelving for these models was developed by Adrian Steel.

**What's New** This version (1.1) contains information about the vehicle safe, which is now found in some vehicles. Future versions, if needed, will have a higher release number. Please report any errors or other change requests using the [Feedback](#) page on the FTS intranet site.

## In This Manual

Topic	Page
Left Side, Shelves	2
Right Side Cargo Space	3
Left Rear, Shelf 1	4
Left Rear, Shelf 2	4
Left Rear, Shelf 3	5
Left Rear, Shelf 4	5
Right Rear, Shelf 1	6
Right Rear, Shelf 2	6
Right Rear, Shelf 3	7
Right Rear, Shelf 4	7

**Left Side,  
Shelves**

---

<b>Shelf</b>	<b>Bin 1</b>	<b>Bin 2</b>	<b>Bin 3</b>
<b>1</b>	Extension cables & hardware mounts	1-15' CAT5 cables	25-50' & Color CAT5 cables
<b>2</b>	Biometrics & mouse	Pic rollers	Sato print heads
<b>3</b>	Miscellaneous	Miscellaneous	ScriptPro parts
<b>4</b>	Safe (if equipped) – HIPAA drives, MX925		

**SAFE**

The safe comes with two sets of keys. One key is to be given to your supervisor. The safe is equipped with a card reader to open the safe. The card reader is to be programmed with the corporate credit card. If you do not have a corporate credit card, the gas card is to be used instead. The code to get into the safe is to be programmed with the last four digits of your employee ID number.
