

ADRIAN

THE PICKUP REIMAGINED FOR THE TRADES

A new generation of pickup cargo solutions designed for flexibility, safety, and real-world work.

ADRIAN'S POV: CONFIGURABILITY IS THE NEW CAPABILITY

ONE PICKUP PLATFORM.

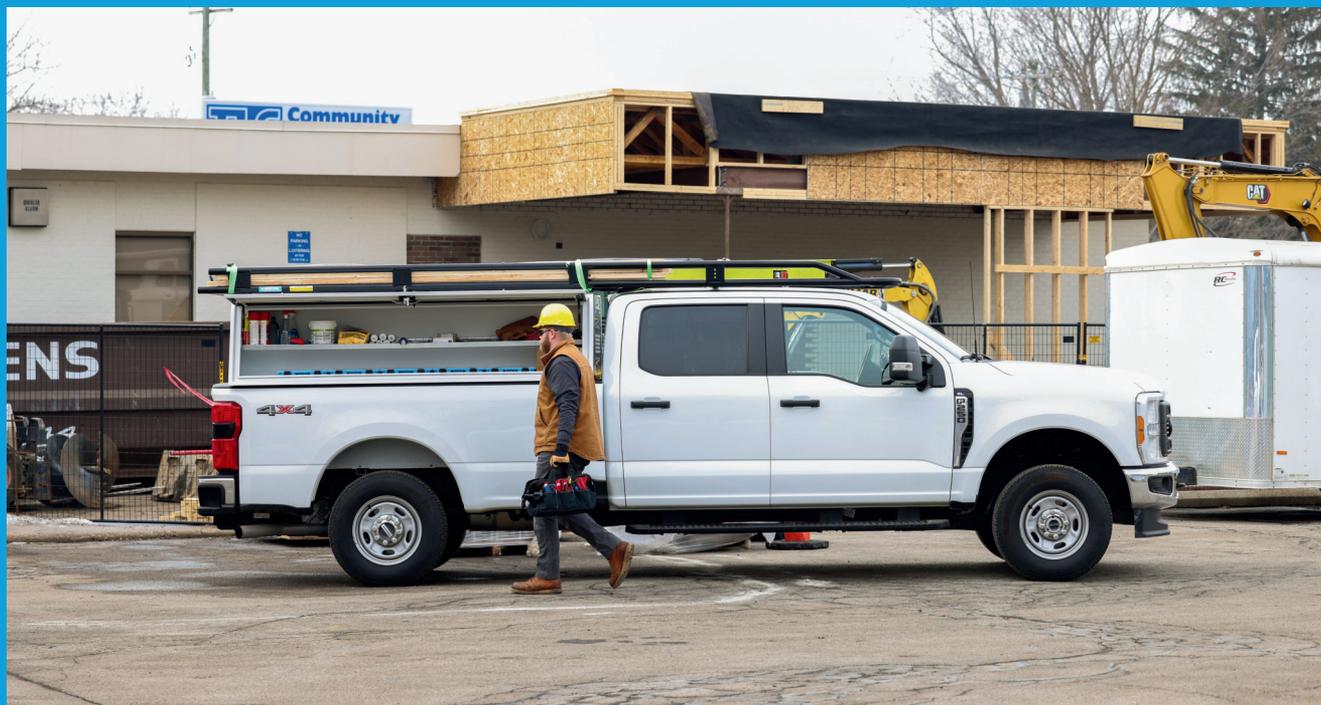

MULTIPLE WORK-READY CONFIGURATIONS, WITHOUT PERMANENT TRADEOFFS.

Capability shouldn't require permanence.

The future of pickup upfitting is **modular, configurable, and reversible** designed around how work actually happens, not how vehicles used to be categorized:

- Van-level organization
- Service-body-level capability
- Without service-body-level commitment, licensing, or downtime

Adrian's Pickup Cargo Solutions are designed around how work actually happens.

THREE CONFIGURATION PATHS

CLOSED BED CONFIGURATIONS

FOR CREWS WHO NEED:

- Weather protection
- Secure storage
- Van-level organization in a pickup footprint

OPEN BED CONFIGURATIONS

FOR CREWS WHO NEED:

- Service-body-like capability
- No permanent modifications
- No extra licensing costs

Built to carry more, move faster, and stay flexible as work changes.

CAB SOLUTIONS, OPTIONS, AND ACCESSORIES

FOR MAXIMIZING:

- Rear-seat storage
- Tool access
- Daily-use efficiency

Because productivity doesn't stop at the bed.

OPEN BED CONFIGURATIONS

FOR FLEETS WHO WANT:

- Service-body-like capability
- Without removing the bed
- Without licensing or permanent modification

Built to carry more, move faster, and stay flexible as work changes.

INCLUDES:

- Topsider boxes
- Window guard
- Sliding bed access
- All-weather cabinets
- Load Runner roof rack

CLOSED BED CONFIGURATIONS

FOR CREWS WHO NEED:

- Weather protection
- Secure storage
- Van-level organization in a pickup footprint

Built to carry more, move faster, and stay flexible as work changes.

INCLUDES:

- Proprietary cap
- Sliding bed access
- Integrated shelving
- 4 roof rack options

RESULT:

Organization without losing the pickup's versatility.

THE ADRIAN WAY

We help the people communities depend on by making incredibly useful storage solutions, so their tools go with them safely. For fleets and trades, that means:

- Faster job readiness
- Fewer compromises
- Vehicles that support the work instead of fighting it

When your vehicle works the way your team works, everything moves faster.

BUILD THE PICKUP THAT MATCHES YOUR WORK.

Start with how your team operates.

We'll help you configure the pickup to support it.
